BUREAU OF INDIAN STANDARDS

Manak Bhavan, 9, Bahadurshah Zafar Marg, New Delhi-110002
Website : www.bis.gov.in; Email : mstd@bis.gov.in

Stage – 1 is usually carried out at the premises of the applicant, unless justified for alternate approach. Apart from the applicant premises, the other sites/remote sites may also be selected for Stage-I based on complexities of activities, risk factors, etc. With the concurrence of auditee, document review may be carried out prior to or during the Stage – 1 audit.

- 1.1. In Stage–I Audit, the Documented Information will be examined by the auditor for verifying the conformance to the relevant standard. Any significant omissions or deviations from the prescribed requirements intimated by BIS will have to be corrected by the applicant and intimated to BIS.
- 1.2. **Documentation review:** The auditor reviews a company's documentation to establish whether it is in line with the requirements of the standard. Examples can include mandatory documented Information (Maintained & Retained) and any other supporting documents necessary for implementation of relevant Management Systems.
- 1.3. **Location evaluation:** The auditor will review the company location to ensure that resources are properly allocated for the Stage 2 audit. This can include confirming the number of employees, number of shifts, number of sites (Single / Multisites) distance between the sites etc.
- 1.4. **Employee interviews:** The auditor will interview employees/mock audit to evaluate the effectiveness of and assess conformity to documented Information, and ensure that they understand the standard requirements. The auditor will also use these interviews to determine the preparedness of the company for the Stage 2 audit.
- 1.5. **Audit planning:** The auditor will provide a focus for planning the Stage 2 audit by gaining a sufficient understanding of the company's management system and operations. The auditor will also determine what resources are needed and confirm the date of the Stage 2 audit, this may include Expert requirements , audit plan matrix, Audit Schedule, Number of mandays (Interactive guidelines for calculation is available) etc . The audit time estimation shall be carried out as per the guideline G6.2-01 and the report of interactive system is to be enclosed with stage – 1 audit report Form F6.2-01 b) For Multisite audit, time estimation is to be done as per guideline G6.2-03 c) Check

list as per format: MSC-F6.1-02 to be verified and reported with stage Audit report]

- 1.6. Continual improvement:** The auditor will point out any areas of non conformity and potential improvements of the management system. By including it in their audit report, the company has an opportunity to rectify the identified deficiencies prior to the Stage 2 audit.

The objective of a Stage 1 Audit is to determine an organization's readiness for their Stage 2 Certification Audit. Review the management system documented information, evaluate the client's site specific conditions and have discussions with employees. The auditor will look to see that objectives and key performance indicators or significant aspects are in place and understood. They will review the scope of the management system and obtain information on the organization's processes and operations, the equipment being used, the levels of control that have been established as well as any applicable statutory or regulatory requirements.

Internal audits and management reviews will be evaluated to ensure they are being planned and performed and the overall level of implementation of the management system to determine if they are ready to move forward with the Stage 2 Certification Audit.

Note: If any significant changes which would impact the management system occur, the certification body shall consider to repeat all or part of Stage I.
