Chapter 40: Auditor Login and Password Change

Auditor login is the registered login with BIS intranet. The password could be changed but the login id cannot be changed. While assigning the login id and password you also note down the Auditor ID and file number from your dashboard which may be noted in log sheets.

MSCD is maintaining only one file for one auditor and quoting the file number enables filing of the papers correctly.

Your dashboard also provides you a facility to download the CPA codes applicable approved by MSCD. You may verify the same and in case any CPA to be added please use the form (F7.1-08) available under forms menu.

Dashboard also gives the facility of your status, superannuation date, status against each system and approved CPA codes. The documents are available to you as per the status given against your dash board.

Passwords could be changed with the facility given in website. To renew login ID could not be changed. In case, you have forgotten your login ID, this can be achieved with the help of ITS.
