

How to download your Ordered Secured Documents

Why is it a Secure PDF?

To protect the intellectual property rights (IPR) of Standards Developing Organization (SDO), we have implemented a security policy that utilizes a free Adobe Acrobat plug-in from FileOpen Systems, Inc. This security feature prevents the reproduction and redistribution of downloaded documents.

What are the securities?

PDF files will be 'bound' to the First two (2) computers on which it was first opened. Once a PDF file has been bound to a computer, it can be opened only from that computer. Viewing Restrictions: You will be required to download the free plug-in to view any secured PDF document. There is no limit to the number of times a document may be viewed on your computer. Printing Restrictions: The plug-in limits the number of times the document may be printed to five copies. Since printing a part will be considered as one print, we recommend you print the entire document.

This guide is to assist you in downloading and viewing the Indian Standards purchased from BIS E-Commerce website.

Step 3:

Installing File open

As the Indian Standard (s) downloaded are encrypted with FileOpen plugin you need to install this before opening the document. This is a one-time installation only.

Please use the following URL to download this plugin.

<https://plugin.fileopen.com/all.aspx>

Click : Fileopen Exe Installer (recommended). Before downloading please read the system requirements as mentioned below.

FileOpen Plug-in Installers for Windows

Windows Installers	FileOpen Exe Installer (recommended)
	MSI Installer for 64bit systems
	MSI Installer for 32bit systems
Which installer should I choose?	We recommend the .exe installer for normal interactive installations as it will install the correct version for your platform. The .exe and .msi installers are equivalent. We provide .msi installers for network deployment by system administrators.
System Requirements	Windows 7 or later, Server 2008 or later Adobe Reader/Adobe Acrobat 9.0 or later

FileOpen Plug-in Installer for Macintosh

Mac OSX Installers:	Mac OS 10.6+ Installer
	Mac OS 10.5 (or lower) Installer
Note:	Please understand that Apple is no longer supporting OSX 10.5, which makes it difficult for us to support it too. This is why the current installer is no longer compatible with OSX 10.5.
System Requirements	Mac OS X Adobe Reader/Adobe Acrobat 9.0 or later

After downloading please click FileOpenInstaller.exe. Following images will help you to install this.
